Massachusetts | Rhode Island | Maine | New Hampshire | Vermont

What is Type 1 Diabetes (T1D)?

T1D is a chronic autoimmune disease in which a person's pancreas stops producing insulin, a hormone people need to get energy from food. T1D strikes both children and adults, and its onset has nothing to do with diet or lifestyle. People with T1D depend on external insulin, via injection or infusion with an insulin pump, to survive. There are no cures. Breakthrough T1D is working to change that.

Breakthrough T1D (Formerly JDRF)

As the leading global T1D research and advocacy organization, Breakthrough T1D helps make everyday life with T1D better while driving toward cures. We invest in the most promising research to turn ideas into life-changing therapies and devices. We work with government, regulatory officials, and insurance companies to address issues that impact the T1D community—breaking through barriers that limit access to care worldwide. We provide resources and guidance that makes it easier to live and thrive with T1D.

Our mission is to improve lives today and tomorrow by accelerating life-changing breakthroughs to treat, prevent, and, ultimately, cure T1D and its complications. Always, we are guided by a single purpose: **As we drive toward curing T1D, we help make everyday life better for the people who face it.**

Currently, **1.5 million Americans** are living with T1D, impacting **1 in 30** families.

Each year, **64,000 people** are diagnosed in the U.S. alone.

With 2.1 million people projected to develop T1D by 2040, we cannot afford to fall behind.

Globally Maximizing Each Donation

\$2.5 billion

Committed in research grants since our founding in 1970

120+

Clinical trials currently underway

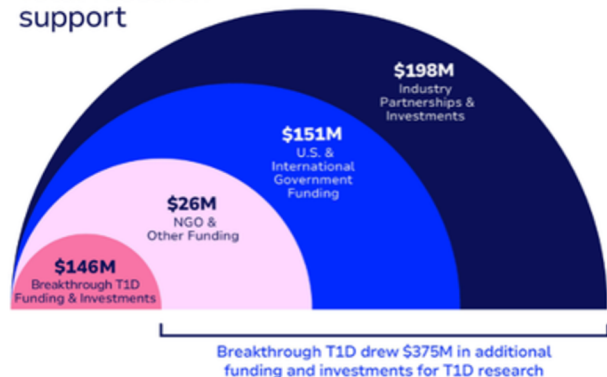

500+

Active research projects funded around the globe today

Fiscal Year 2024: By the Numbers

\$521M

Total research support

Breakthrough T1D invested \$146M in research in FY24, and through our influence within the public and private sectors, we helped raise another \$375M.

A total of \$521 million—through funding from other organizations, corporations, and governments, in addition to Breakthrough T1D—for T1D research and therapy development.

Of that \$521M, the T1D Fund—Breakthrough T1D's venture philanthropy fund established to drive private investment in T1D therapy research and development—catalyzed \$171M* in private investment in companies developing T1D treatments.

*Calculated using figures as of November 2024.

Partner with Breakthrough T1D

Position Your Company with the Golf Classic

The Tee Up Golf Classic has been a staple in the New England community since its inception in 2002. Under the leadership of Chair, Christopher Librizzi, this event has raised more than \$2.6 million for T1D breakthroughs over the last 25 years. It is the longest-running charity golf tournament in Rhode Island.

Last year, more than **220 corporate sponsors, families, and friends** raised more than **\$205,000 for T1D research**. By partnering with us, your company will be making a significant and direct impact on how we work to cure, treat, and prevent T1D. The event offers exciting contests, a silent auction, and Fund A Cure - a fully tax-deductible donation to accelerate life-changing breakthroughs.

Get Involved in a Meaningful Way

Companies support Breakthrough T1D because we have a solid track record of funding research efficiently and effectively. Approximately 80% of what we raise goes directly to research and research-related education, which is among the highest percentages for charities nationwide.

Invest in the Future

Breakthrough T1D-funded research encompasses T1D at every life stage: stopping its progression in people who are newly diagnosed; reversing it in those who have lived with the disease for years; avoiding or reversing complications, and preventing the disease in people at risk.

Be In Good Company
