# Be In Good Company

## Thank You to Our Previous Corporate Supporters

## Partner with

### Position Your Company with the Gala

The Breakthrough T1D San Francisco Gala is a high-profile, fundraising event that brings the T1D community together for an exceptional night at the landmark San Francisco City Hall. This signature event draws social, business, and civic leaders from around Northern California.

Your tax-deductible sponsorship offers valuable visibility and distinct brand alignment with Breakthrough T1D through its websites, publications, and social media. And, with an average of 400 guests attending each year, our partners are afforded unique, cost-effective market exposure.

Last year, a combined **450 corporate sponsors, families, and friends** came together and raised a remarkable **\$1.4 million for critical T1D research**. By partnering with us, your company will be making a significant and direct impact on how we work to cure, treat, and prevent T1D. Additionally, the Breakthrough T1D San Francisco Gala offers exciting Live and Super Silent auctions, plus an opportunity for individual giving through Fund A Cure.

### Get Involved in a Meaningful Way

Companies support Breakthrough T1D because we have a solid track record of funding research efficiently and effectively. Approximately 80% of what we raise goes directly to research and research-related education. We have more than **\$22.3 million designated to 27 research projects in the Northern California region**.

### Invest in the Future

Breakthrough T1D-funded research encompasses T1D at every life stage: stopping its progression in people who are newly diagnosed; reversing it in those who have lived with the disease for years; avoiding or reversing complications, and preventing the disease in people at risk.

Please contact **Marcus Wonacott**,

- Logo displayed on all banquet menus

# What is Type 1 Diabetes (T1D)?

T1D is a chronic autoimmune disease in which a person's pancreas stops producing insulin, a hormone people need to get energy from food. T1D strikes both children and adults, and its onset has nothing to do with diet or lifestyle. People with T1D depend on external insulin, via injection or infusion with an insulin pump, to survive. There are no cures. Breakthrough T1D is working to change that.

## Breakthrough T1D (Formerly JDRF)

As the leading global T1D research and advocacy organization, Breakthrough T1D helps make everyday life with T1D better while driving toward cures. We invest in the most promising research to turn ideas into life-changing therapies and devices. We work with government, regulatory officials, and insurance companies to address issues that impact the T1D community—breaking through barriers that limit access to care worldwide. We provide resources and guidance that makes it easier to live and thrive with T1D.

Our mission is to improve lives today and tomorrow by accelerating life-changing breakthroughs to treat, prevent, and, ultimately, cure T1D and its complications. Always, we are guided by a single purpose:

**As we drive toward curing T1D, we help make everyday life better for the people who face it.**

Currently, 1.6 million Americans are living with T1D, impacting 1 in 31 families.

In 2024, 52,000 people were diagnosed in the U.S. alone.

With 2.1 million people projected to develop T1D by 2040, we cannot afford to fall behind.

More than half (56%) of all people newly diagnosed with T1D are adults aged 20 and older.

Nearly 85% of diagnoses occur in people who have no family members with the disease.

## Globally Maximizing Each Donation

**\$1.2 billion**

Committed in research grants  
during the past five fiscal years

**11 +**

Clinical Trials  
currently underway

**400 +**

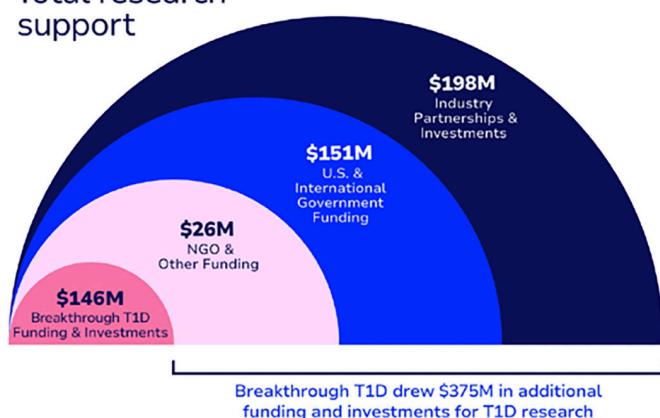

Active projects funded  
around the globe today

## Fiscal Year 2024: By the Numbers

For FY24, we saw a 16% increase in our total revenue over that of FY23

**\$521M**

Total research  
support

Breakthrough T1D invested \$146M in research, and through our influence within the public and private sectors, we helped raise another \$375M

A total of **\$521 million**—through funding from other organizations, corporations, and governments, in addition to Breakthrough T1D—for T1D research and therapy development

Of that \$521 million, **the T1D Fund**—our venture philanthropy fund established to address the lack of private investment in T1D therapy research and development—catalyzed **\$146M\*** in private investment in companies developing T1D treatments

\*This \$146M accounts for the majority of the \$198 of the “Industry Partnerships and Investments” section in the triangle graphic
