

# Fundraising Online

Now that fundraising has moved mostly online, it's time to start thinking of some fun, new ideas to raise money for innovative T1D research!

## Connect Your Participant Center to Facebook

### Step 1

From your Participant Center dashboard, Look for the “Fundraise With Facebook Section” and click “See Details” below your fundraising progress.

### Step 2

A “Create a Facebook” Fundraiser” window will pop up on your screen. Click the, “Connect to Facebook” Button and sign into your Facebook account. If you are already signed into Facebook, you will not have to sign in again.

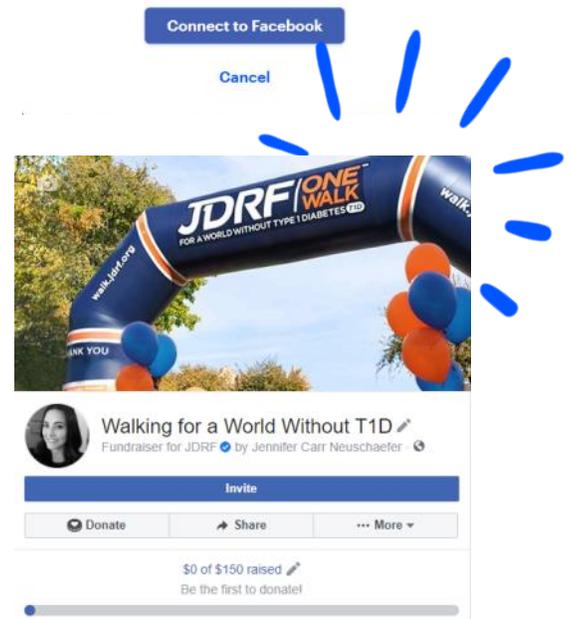

Once the accounts have connected, it will notify you in the bottom left corner of your window and the box will disappear from your participant center.

### Step 3

Check out the Facebook Fundraiser you just created! All donations received on your Facebook Fundraiser will automatically show up on your JDRF One Walk participant page .

- If you haven't already customized your page, you can do so in the “My Page” tab in your participant center. Then copy your story, scroll down to “About” on your Facebook Fundraiser page and click the “edit” button.
- If you have customized your page, your Facebook Fundraiser will automatically copy that information.

## Facebook & Instagram Post Templates

- Unlike years past I have been very hesitant to ask for donations for the JDRF One Walk in light of the current situation and almost felt guilty doing so. However, chronic conditions never take a vacation and T1D is no exception. With traditional events cancelled and sources of funding severely reduced, it is more important than ever to support non-profit organizations like JDRF who are fighting for a cure and improving lives every step of the way.

Please consider making a donation to JDRF as I aim to Walk [X] miles to bring us one step closer to a world without type 1 diabetes. I recognize we are all facing our own constraints in these times and strongly encourage you to focus on the cause(s) closest to your heart first. Any amount you have left over for JDRF is greatly appreciated. *[Insert link]*

- I was debating whether to share this post, given the current environment, but I ultimately decided to because type 1 diabetes (T1D) does not stop for anything. And, in fact, during such times, T1D treatment and management becomes even more difficult for many families because of insulin availability/cost and loss of income.

It is with those families in mind that I gently ask you to consider donating to my JDRF One Walk fundraising page. No donation is too small. Every dollar you can give will truly make a difference. If you cannot make a full donation today, please consider making a reoccurring gift to help fund Integral T1D research. *[Insert link]*

- Now, more than ever, we need to stand together and find cures for type 1 diabetes. With news headlines like “More people being diagnosed with type 1 diabetes” it is critical to take action. Will you please join me in the fight against T1D and help fund life-saving research? *[Insert link]*

## Twitter Post Templates (280 Character Limit - Including Spaces)
