About Breakthrough T1D

As the leading global type 1 diabetes (T1D) research and advocacy organization, Breakthrough T1D helps make everyday life with T1D better while driving toward cures. We invest in the most promising research to turn ideas into life-changing therapies and devices. We work with government, regulatory officials, and insurance companies to address issues that impact the T1D community—breaking through barriers that limit access to care worldwide. We provide resources and guidance that makes it easier to live and thrive with T1D. This is more than a moment—we’re powering a movement for the T1D community. Share your support and help educate and empower individuals facing type 1 diabetes.

Our Mission

Our mission is to improve lives today and tomorrow by accelerating life-changing breakthroughs to treat, prevent, and, ultimately, cure T1D and its complications. Always, we are guided by a single purpose: **As we drive toward curing type 1 diabetes, we help make everyday life better for the people who face it.**

Our Funding

Globally, millions of supporters help us drive toward curing T1D while making life with T1D better for the people who face it. Last year, through our funding and funding from our partnering organizations, \$449.4M went to support T1D research and therapy development.

Our Research Goals

Curing T1D	Restoring the body’s ability to make insulin and stop T1D before it occurs
Improving Lives	Keep people with T1D as healthy as possible until cures are available by advancing new T1D resources, technologies, and therapies

Our Approach

Funding Groundbreaking Research

In our quest to drive cures for T1D and improve the lives of those with the condition, Breakthrough T1D has driven nearly every major advance—drug, device, cell therapy—made in T1D in the last 50+ years. We coordinate clinical trials to ensure new therapies are thoroughly and quickly evaluated, and work to ensure that people living with T1D can take advantage of every innovation.

Advocating for Change

We work with the White House, Congress, the Food and Drug Administration, other federal agencies, pharmaceutical and device manufacturers, insurance companies, and organizations to secure critical funding, enact favorable policies, drive innovation forward, and advocate for coverage, affordability, and choice. Our work is strengthened by a robust grassroots volunteer network and multitudes of advocates who support and amplify our calls to action.

Providing Resources for the T1D Community

From the day of diagnosis to daily life decades later, Breakthrough T1D supports and connects people in the T1D community to help them live better lives. Whether you're interested in joining a vibrant online T1D community or local chapter, are seeking to enter a clinical trial, in need of advice from someone who's been there, or looking for educational tools to help you or your loved one manage the condition—Breakthrough T1D is ready to help.

Research by the Numbers

400+ active projects funded around the globe today

Over **\$2.5 billion committed** in research grants since our founding in 1970

59+ Breakthrough T1D-funded clinical trials currently under way

Advocacy by the Numbers

Nearly **\$3.5 billion secured in federal funding** through the Special Diabetes Program since it began 25+ years ago

Approximately **500 meetings** with Members of Congress and their staff each year

All **25 of the U.S.'s largest private health insurers** offer coverage of automated insulin delivery (AID) systems for people with T1D

Resources by the Numbers

Nearly **20,000 care kits** delivered annually to newly diagnosed families

30,000+ people have joined Breakthrough T1D Community Forum's vibrant social network for the T1D community

1 million+ adults and children with T1D have joined our events to fundraise for T1D research

JDRF Evolves into Breakthrough T1D

For more than 50 years, JDRF has fueled progress to improve life with type 1 diabetes (T1D), playing a pivotal role in nearly every T1D breakthrough. When we were founded, T1D—then called “juvenile diabetes”—was thought of as a disease only diagnosed in children. We now know that people of all ages are diagnosed with T1D. That’s why JDRF is now Breakthrough T1D, a name that better represents who we are, what we do, and our impact on the entire T1D community.

Our Purpose

After two years of research and feedback from the T1D community, we’re excited to introduce you to Breakthrough T1D. We are bringing our 50+ year history with us, while aligning our brand with who we are today—the leading global T1D organization working to accelerate life-changing breakthroughs to cure, prevent, and treat T1D and its complications.

Our new brand reflects who we are today—the leading global type 1 diabetes research and advocacy organization—and the future breakthroughs we’re pursuing for the T1D community. No matter where you are in your T1D journey, we are here to help. Our new purpose statement says it best:

As we drive toward curing type 1 diabetes, we help make everyday life better for the people who face it.

Brand Goals

Increase familiarity with who we are and our impact

Foster engagement from the full T1D community

Present clearer reasons to support our organization and work, activating more donors, advocates, and volunteers

Increase investment in T1D research, advocacy, and community support

“

Our name and look have changed, but our mission has not. We are executing an ambitious plan to drive cures, and our job won’t be done until everyone can take their diabetes devices off for good.”

Aaron J. Kowalski, Ph.D., Breakthrough T1D CEO

With your support, we are creating a movement to improve and change life with T1D, advancing breakthroughs on the way to cures.
