When Caitlin Marino was diagnosed with Juvenile (Type One) Diabetes in March of 1991, the Marino Family team began actively raising funds for the Juvenile Diabetes Research Foundation. In 2006, as virtually newlyweds, Caitlin recognized the symptoms in her husband, Kevin Lang, and he ultimately was diagnosed with Type One Diabetes. Our fund raising continued, although remained small. In September 2013, and March 2014, Caitlin and Kevin's identical twin daughters were diagnosed at the age of 5 years old. It was then that Caitlin and Kevin's family and friends decided we needed to increase our efforts and Team Four of A Kind For A Cure was formed! During our inaugural event, Team Four of A Kind For A Cure was able to send over \$7500 to JDRF! Last year, 2015, we surpassed our goal and raised close to \$15,000! We hope you can join as we continue to raise awareness and fight to cure T1D!

JDRF is the leading global organization funding type 1 diabetes (T1D) research. JDRF's goal is to progressively remove the impact of T1D from people's lives until we achieve a world without T1D. JDRF collaborates with a wide spectrum of partners and is the only organization with the scientific resources, regulatory influence, and a working plan to better treat, prevent, and eventually cure T1D.

We hope that you will join us on June 25th at Southers Marsh Golf Course in Plymouth for our 3rd Annual Four of A Kind Golf Tournament and Dinner. With this year's goal of \$10,000 we know this will be a successful fundraiser for JDRF! The Tournament will begin at 1:00pm and the evening festivities of dinner, raffles and a silent auction will begin around 5:00pm.
